

# welcome

We treat your kids like they are part of our family. Rowan Medicine pediatricians deliver quality health care to children under the age of 21. As your primary care office, we take care of all of your medical care, whether it's a routine physical, or something that requires a specialist's knowledge and experience.

Rowan Medicine pediatric physicians are Board Certified or Board Eligible in Pediatrics and are committed to providing you and your family with quality care. We accept most insurance plans; please call our office or check with your provider to verify coverage.

**ROWAN MEDICINE** health care providers are faculty members of the **ROWAN UNIVERSITY SCHOOL OF OSTEOPATHIC MEDICINE.**

**JEFFERSON HEALTH** is the principal hospital of Rowan Medicine. Other affiliated hospitals and health systems include:

- **LOURDES HEALTH SYSTEM**
- **INSPIRA HEALTH NETWORK**
- **COOPER UNIVERSITY HOSPITAL**
- **MERIDIAN HEALTH SYSTEM**
- **CHRIST HOSPITAL**
- **ATLANTIC HEALTH SYSTEM**

medicine

#### **OFFICE VISITS AND SERVICES**

- Check-ups and well visits:  
By appointment only
- Walk-in hours for established sick patients:  
Monday to Friday, 8:30 to 9:30 am

#### **CHECK UPS, WELL BABY AND WELL CHILD VISITS**

Our office follows the recommendations of the American Academy of Pediatrics in scheduling childhood immunizations. This schedule includes well-baby visits every one to two months in the first six months of life; every three months until 18 months of age; and then yearly from age two until school age.

#### **SCHOOL, CAMP, SPORTS AND OTHER FORMS**

Whenever possible, we try to complete any necessary forms at the time of your child's regular check up. Otherwise, it may take up to three business days. Please keep in mind that in order for us to complete these forms, we must have seen your child for a full physical (not just a sick visit) within one year. Your cooperation is appreciated.

#### **AFTER HOURS CALLS**

One of our pediatricians is available 24 hours a day, seven days a week. For urgent problems after office hours, call our regular telephone number to reach the pediatrician on call. The recorded message will prompt you to press '0', and a live answering service will page the on-call doctor for you. Please reserve these calls for urgent problems only. If you have a true medical emergency, please dial 911.

#### **REFERRALS**

Referral requests may take up to 48 hours to process.

#### **HOSPITALS**

Children who require inpatient hospital care will see the in-house pediatricians who cover the hospital 24 hours a day. Those doctors are in direct contact with our office regarding any of our patients. Children who require more specialized care are referred to pediatric sub-specialists at Cooper University Hospital, Children's Hospital of Philadelphia (CHOP), St. Christopher's Hospital for Children and the Alfred I DuPont Institute.

#### **INSURANCE**

We participate with most insurance carriers and managed care plans. By legal obligation, we must follow the procedures and guidelines established by these insurance carriers in regard to co-pays, referrals and the use of in-network specialists, hospitals and other facilities.
